Publication Books and Edited Volumes:-

Synopsis 1:- Theory of Liquidity of my Research paper

Liquidity is like H₂O Water or fuel for organization, no organization can survive without it Liquidity in blood life of banking and economics . The crucial role in the bank liquidity is played by Working capital Area deeply explain in WCC theory which are rotated every years every month . Liquidity in banking is also affected REPO and Reverse Repo . Investing in long run and short run is also affected by Liquidity .liquidity is also affected by Credit lending policies and guidelines. Liquidity is also influenced by tax policies and unseen tax inflation. Liquidity is beam cycle of the Bank as described working capital theory by me. How to absorb the risk to maintain enough liquidity shocking risk in balance sheet is explained by me by Financial engineering ration Formula (FEMA Financial efficiency management accountancy ratio) . How upper limit of liquidity and lower limit liquidity is affect by banking.

Synopsis 2 Modern theory of rent of my Research paper

Land must be divided or create ring-fencing in two part one his (Fertility land) farming land other not farming land day by day global population increasing also human economics balder have been increased from 1st to 21st century is double to GDP bladder of that nation deforestation of land to build the Airport Housing , Transportation mode cycle of country ,complex and other many thingRent simply define as mode or medium to income and land too is also infinite source of income because the values of land keep in changing according time .Demand bladder of Land is lower surrounded by Ocean Pacific ocean Arctic Atlantic one day all global financial world land will be vanished in the water of ocean.That is called end of Century Antarctica is continent where no human being live there

Synopsis 3 Theory of Working Capital of my Research paper

Working capital is important modes of financing in the international & banking industry. The main motive of developing this theory is that how can we predict working capital need of venture capital loan, Pari Passu loan, seed capital loan, corporate, mid corporate, SME (small medium enterprises loan) & HSME (Higher (small medium enterprises loan). Working capital loan is important modes meeting the working capital structure of the loan. Working capital has tremendous importance in any business. We cannot the ignore importance of working capital financing in the banking industry. There must be adequate bound to measure the working capital requirement. Working capital is simply act as the horse power of any business if we do not have the working capital we cannot we cannot even imagine to run the business.

Synopsis 4 Theory of Risk of my Research paper

Risk :-Risk anything that is controllable & uncontrollable both & measurable in terms units & Financial means Risk defined debt also higher the debt higher the risk in the economy lower the debt lower the risk in the economy Risk is defined also by the Internal debt & external debt that divide the Fiscal policy of that nation Rate of risk is defined by Interest rate higher interested rate higher the risk in the economy lower the interest rate lower risk in the economy Risk is mechanism Risk is both controllable risk and uncontrollable risk . Risk consist what to achieve ? what to define? We are surrounded by the risk everywhere in daily Risk consist of Productive and non productive factor in the economics The Economic bladder of risk is divided into 3 parts Concentration economics risk Petronomics and Working Capital Economics risk

Synopsis 5:- Helicopter money (HM of Economics) of my Research paper:-•Helicopter

money concept original developed by Late Professor Sir Milton Friedman after the "Failure of Fractional reserve System in USA1931" Add the Photo and Clips and Bank of United State Crashed USA Why is these two Person i have added Presentation slide (Origin of Helicopter money) First call goes to Sir JP Morgan “Father of Wall Street to save the bank of United States JP Morgan Denied to Bailout even he can purchased 5 Commercial bank at once •After Late Professor Sir Irvin fisher (University Yale) told to do Reverse to save from great depression "Time Deposit" (Irvin Basel Committee is name after him

Synopsis 6: Great Depression 1929 USA of my Research paper

The Great Depression begins Despite the fact opulence dominated the 1920s, the 1930s were the complete contradictory. Since the Wall Street Crash would drop America and the rest of the world into a Great Depression, the 1930s became a very unwelcoming decade for so many. This is an Paper about the 1929 stock market crash - it was that one major financial disaster event that escorted in the Great Depression (1929 - 1940). It all came crashing down on October 24, 1929 - the stocks offered at the New York Stock Exchange had lost 80% of their value; the day was immediately dubbed "Black Thursday" by all those who experienced it. When the sun rose that morning, the U.S. unemployment estimate stood at 3%; shortly afterward it soared to a staggering 24%."In every town families had dropped from affluence into debt...Americansere soon to find themselves in an altered world which called for new adjustments, new ideas, new habits of thought, a new order of values. The Post-War Decade had come to its close. An era had ended." The era that followed was was the polar opposite of the one that had just gone down in flames: if the Twenties are remembered for confidence and prosperity, the Thirties was a decade of insecurity and want. The attached essay was penned by a popular author who knew the era well. The Wall Street Crash of 1929 was the sudden collapse of the stock market in the United States and the greatest economic disaster in modern history. On Tuesday 29th October 1929, known as “Black Tuesday,” the Wall Street Crash signalled the beginning of the Great Depression.
